

Tuesday

Hi Vicki & Jim,

How are things with you two? Are you still slaving away catching up Vicki? I'm sure you have been busy - How is the health of the little noble fir? Does it like the Virginia air?

I have some pictures we took at the family picnic and at Ken's - Keep those you wish and send the rest back sometime.

We're in between peach

varieties now - with the exception  
of a couple of bushels of Hale Haven  
which I shall can if no one  
beats me to them - Ha! We've  
had rain and Sade worked  
up the orchard again and it  
looks beautiful -

Did I write you after our  
campout? I think I did -  
Any way we had a good time.

Francie is in the hospital  
today having fluid extracted  
from the back of her right eye -  
its the one which causes  
her all the problems - pressure  
builds up, etc - I do hope this  
will solve the problem!

We may take in the State  
Fair this evening - that is,

if the weather forecast  
proves false - Right now  
it's beautiful and has been  
all day but they say it  
could rain tonight - I hope  
not as we've had plenty  
of moisture & late! Dad would  
like to look at the farm  
equipment - He still doesn't  
really know what he wants  
in the way of a tractor. It's  
fun to go to the Fair anyway -  
maybe we'll ride the ferris-  
wheel at dusk -

Time to close - Hope you're  
both ok - write soon -

Much love, Mom & Dad

P.S. Jerry & Ron were out last night -  
Jerry may move home for awhile -

Says he's had it with his  
"slum" surroundings - will look  
for another place - possibly with  
another fella - Hopefully, that is.
